

Md. Minhaj Uddin Tapader

Web Developer

minhajtapader0@gmail.com | Sylhet, Dhaka | +8801786224382 | [Linkedin](#) | [Github](#) | [Portfolio](#)

Career Objective

I aim to leverage my skills in React, Next.js, and TypeScript to build impactful web applications. With a strong foundation in Node.js and Express.js, I strive to enhance user experiences. My goal is to grow as a web developer while contributing to innovative projects.

Skills

Frontend: HTML, CSS, JavaScript, React, Next.js, TypeScript, Redux, Zustand | **Backend:** Node.js, Express.js | **Database:** MongoDB, Firebase, MySQL

Projects

TechBlog, Full Stack, [Live](#) / [Client](#) / [Server](#) September 2024 – January 2025

Overview: A blogging platform that allows users to explore, create, and interact with articles across various categories.

Features:

- Categorized articles, with search and filter options for a personalized experience.
- User authentication with bookmark/unbookmark and like/dislike functionality.
- Admin functionality for managing, categories, views, and read time of blog posts.

USpace, Full Stack, [Live](#) / [Client](#) / [Server](#) October 2024 – December 2025

Overview: A rental marketplace where users can search, filter, and book spaces with payment.

Features:

- Search, filter, and rent spaces with Stripe-integrated secure payments.
- Social login, dashboard for bookings, and email notifications.
- Browse and discover spaces sorted by price and manage user bookings.

PayTasker, Full Stack, [Live](#) / [Client](#) / [Server](#) January 2025 – February 2025

Overview: A task-based freelancing platform with role-based access and secure payments.

Features:

- Role-based access for Workers, Buyers, and Admins.
- Task management, coin-based payment integration with Stripe for secure transactions.
- Real-time notifications, dynamic dashboards, and user authentication.
